

After over a decade of service, Dr. Robin James Storer was formerly full-time coeditor-in-chief of Asian Biomedicine, an international Thai Citation Index-listed journal publishing peer-reviewed contributions in the biomedical and clinical sciences. A member of both the Asia-Pacific and World Associations of Medical Editors, Ajarn James currently teaches academic writing in postgraduate programs at the Faculty of Medicine at Chulalongkorn University, where he has conducted research into neurological disorders and infectious diseases. He has a background in pharmaceutical development, neurosciences, chemistry, immunology, microbiology, and virology, having trained and worked at the University of California, San Francisco (UCSF), the Institute of Neurology at the National Hospital for Neurology and Neurosurgery, Queen Square, University College London (UCL), University of Sydney Royal North Shore Hospital Pain Management Research Institute, University of New South Wales (UNSW) Prince Henry Hospital, University of Adelaide Women's and Children's Hospital, and the Centre for Neurosciences at Flinders University of South Australia Medical Centre. Dr. Storer has edited over 5000 manuscripts, including as a consultant to ISO 9001 accredited language-editing companies, whose clients are professional biomedical researchers worldwide, especially in Thailand, Japan, Korea, and China. With a Ph.D. and more than 25 years of practical experience as a published biomedical scientist in Asia, Australia, the United States, and the United Kingdom, Dr. Storer understands the requirements of English language journals and those who wish to be published in them.
